Materials You'll Need

- 14-count Aida cloth (white or off-white)
- DMC embroidery floss in the following colors:
 - - Black
 - - White
 - - Red
 - - Gray
- Cross stitch needle
- Embroidery scissors
- Embroidery hoop
- Pattern (provided in this guide)

Step-by-Step Tutorial

1. **Prepare Your Fabric:** Start by cutting a piece of Aida cloth that is approximately 6 inches by 6 inches (or larger, depending on the desired size of your finished piece). Center the fabric in the embroidery hoop and tighten the screw to secure it.
2. **Thread Your Needle:** Separate a strand of embroidery floss from the skein and thread it through the cross stitch needle. Double the floss over and knot the ends together to create a secure loop.
3. **Find the Center of the Pattern:** Locate the center of the cross stitch pattern and mark it on the Aida cloth with a small pin or a pencil mark. This will help you align the design correctly.

4. **Start Stitching:** Refer to the pattern and begin stitching the design. Use the cross stitch method, which involves making two diagonal stitches that form an "X" shape on each square of the Aida cloth.
5. **Change Colors:** As you progress through the pattern, you will need to change colors. To do this, simply knot the new color onto the end of the old color and continue stitching.
6. **Half Stitches:** Some areas of the pattern may require half stitches. To make a half stitch, simply stitch only one diagonal of the "X" shape.
7. **Backstitch:** For the outline of the skull and fangs, use backstitch. To backstitch, simply stitch a straight line along the edge of the design, going over and under the Aida cloth.
8. **French Knots:** For the eyes of the skull, use French knots. To make a French knot, bring the needle up through the fabric, wrap the floss around the needle twice, and then insert the needle back into the fabric close to where it came up.
9. **Finish Your Piece:** Once you have completed the design, knot the floss securely on the back of the Aida cloth. Trim any excess floss and gently press the finished piece to remove any wrinkles.
