

Seville's New Normal: Insider Tips for Visitors in 2024

As the world continues to grapple with the COVID-19 pandemic, it's important to be aware of the new normal in popular tourist destinations. Seville, Spain, is no exception. While the city is still open to visitors, there are some important changes to be aware of before you plan your trip.

Mask Mandates

One of the most noticeable changes in Seville is the mask mandate. Masks are required in all indoor public spaces, including shops, restaurants, and museums. You may also be required to wear a mask outdoors in crowded areas, such as markets or tourist attractions.

If you don't have a mask, you can purchase one at most pharmacies and convenience stores. It's a good idea to carry a few extra masks with you in

case you lose or damage one.

Social Distancing Guidelines

Social distancing guidelines are also in place in Seville. This means staying at least 1 meter (3 feet) away from others in public spaces. You may also be asked to limit the size of your group to 10 people or less.

When visiting popular tourist attractions, it's important to be patient and respectful of others. Be prepared to wait in line and follow the instructions of staff members.

Reduced Capacity

Many businesses in Seville are operating at reduced capacity. This means that you may need to wait in line to enter popular attractions, such as the Alcázar of Seville or the Seville Cathedral.

It's a good idea to book your tickets in advance, if possible. You can also visit during off-peak hours to avoid the crowds.

Increased Hygiene Measures

Businesses in Seville are taking extra precautions to ensure the safety of their customers. This includes increased cleaning and disinfection, as well as the use of hand sanitizer stations.

It's important to follow the instructions of staff members and wash your hands frequently. You may also want to bring your own hand sanitizer with you.

Other Changes

In addition to the changes listed above, there are a few other things to be aware of when visiting Seville in 2024:

- Some businesses may require proof of vaccination or a negative COVID-19 test.
- It's a good idea to check the website of your hotel or airline before you travel to see if they have any specific requirements.
- Be prepared for changes to your travel plans, as the situation with COVID-19 continues to evolve.

The new normal in Seville may be different from what you're used to, but it's still possible to have a safe and enjoyable trip. By following these insider tips, you can help protect yourself and others from COVID-19.

We hope this article has been helpful. If you have any questions, please feel free to leave a comment below.

Stay safe and enjoy your travels!
