

The Duke Manual of Pediatric Ophthalmology and Strabismus Surgery: A Comprehensive Guide for Clinicians

The Duke Manual of Pediatric Ophthalmology and Strabismus Surgery is a comprehensive, state-of-the-art manual that provides ophthalmologists and strabismus surgeons with a detailed guide to the diagnosis and management of eye disorders in infants and children. The book covers the full range of pediatric ophthalmic conditions, from common disorders such as amblyopia and strabismus to rare and complex diseases such as retinoblastoma and optic nerve hypoplasia.

The Duke Manual of Pediatric Ophthalmology and Strabismus Surgery is written by leading experts in the field and is based on the most current research and clinical experience. The manual is richly illustrated with more than 1,500 high-quality images, including clinical photographs, surgical illustrations, and videos. The text is clear and concise, with a consistent format that makes it easy for readers to find the information they need.
